Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Arguments

1. The 35 U.S.C. §112 rejection has been vacated based on the amendment submitted on 11/28/07.
2. Applicant's argument in light of the amendment with respect to the prior art rejection have been fully considered and are persuasive. The prior art rejection of claims 1-16 have been withdrawn.

Drawings

3. Figure 1 should be designated by a legend such as --Related Art-- because only that which is old is illustrated. Applicant argues specification discloses the features of the invention in the figure. However this is not the case since the descriptors being transferred from USB device to host is what is novel, and this is not shown in Fig. 1. Fig. 1 simply shows a typical host to USB device set up, nowhere are there descriptors. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

4. Claims 1-16 and 19-24 are allowed.

The following is the statement of reasons for the indication of allowable subject matter: The prior art disclosed by the applicant and cited by the Examiner fail to teach or suggest, alone or in combination, ***all*** the limitations of the independent claim(s) (*claims 1,8,16 and 22*), particularly a device attached to a host where a predetermined data structure is transferred from the device to the host to indicate whether or not the device supports DMA.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Patents and patent related publications are cited in the Notice of References Cited (Form PTO-892) attached to this action to further show the state of the art with respect to indicating whether DMA is enabled or disabled.

- US Pat. Pub. 2004/0103234 to Zer et al. discloses a peripheral card device that attaches to a host device and the card will have an indication of whether DMA transfer is supported or not (*Paragraph 47*). However, Zer et al. was filed after the foreign priority date of the instant application.
- US Pat. No. 6,898,678 to Six et al. discloses a control register that indicates whether DMA is enabled or disabled (*col.8 l.44-50*). However, Six et al. does not disclose the register being on the peripheral device nor that it is in descriptor form for transfer from the USB device to host device.

Conclusion

6. This application is in condition for allowance except for the following formal matters:

Objections to drawings.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
